

Basics of Computer Systems

Nowadays, everything is computer or internet. Even if in your job, you are not (yet) using a computer, you need to at least know how to use a smartphone. **This means tech career is becoming more essential.**

After this training you will be able to:

- > Understand how data is processed in a computer
- > Perform basic operations in binary
- > Understand how IP addresses work in a network and on the internet

When? 11 May 2021
from 08:00 am to 12:00 pm

Where? Digital Training

Who? Jaruwan Mesit, Project Manager
